We are of the World

Freedom, inspiration, challenge like when a ship sails in the immense but united sea, are the first thoughts that comes to our mind when we develop each product.

Water is the integrating element of the world, one of the few that has the magic of uniting it at any extreme and with it cultures, lives and traditions.

Each of our products knows no barriers, we seek excellence in the 5 continents of our planet with the mission of offering products of a unique quality at affordable prices without losing the roots of the Scandinavian design of our brand.

Let's sail together!

Libertad, inspiración, reto como cuando un barco navega en el inmenso pero unido mar, son los primeros pensamientos que nos vienen a la mente cuando desarrollamos cada producto.

El agua es el elemento integrador del mundo uno de los pocos que tiene la magia de unirlo en cualquier extremo y con ello culturas, vidas y tradiciones.

En Båten este pensamiento lo tenemos como bandera, En fin "Somos del mundo" porque cada uno de nuestros productos no conocen barreras, buscamos la excelencia en los 5 continentes de nuestro planeta con la misión de ofrecer productos de una calidad única a precios asequibles sin perder las raíces del diseño escandinavo de nuestra marca.

¡Naveguemos juntos!
